

TOMMY MILTON HAS HARD LUCK IN FRESNO 200 MILE SPEEDWAY RACE

(Republican A. P. Leased Wire)
FRESNO, Cal., Oct. 2.—Jimmy Murphy won the 200-mile San Joaquin automobile race here today and a purse of \$5000. Eddie O'Donnell was second, two lengths behind, and won \$3000. Tommy Milton was third, taking a purse of \$1500. Murphy's time was 2 hours 4 minutes and 22 seconds.

Others finished in the following order: Gaston Chevrolet, Joe Thomas and Maco Saria.

Murphy's average for the 200 miles on the new mile track was 97 miles an hour. The fastest lap of the race was driven by Ralph DePalma at an average speed of 100 miles an hour.

Tommy Milton had hard luck in his Fresno race yesterday, finishing third in the 200-mile event celebrating the opening of the coast speedway.

Milton was leading on the 170-mile lap when he blew out two tires, which cost him the race. Milton's jinx started

Friday afternoon when he cracked a cylinder on his fastest car while practicing on the track and was forced to use a slower wagon. A new set of cylinders were immediately ordered and the fast machine will be ready for next Sunday's races.

The following telegram from Milton reads like speed for the Sunday race: Fresno, Oct. 2.

Sporting Editor, Republican, Phoenix.
Blowing two tires at one time while I was leading in the 200-mile race at the 170th mile cost me the big race here today. After this tough luck I was able to finish third in a fast field of drivers and beat Chevrolet by two lengths. I have the perfect gearing on my fastest car for the one mile track at Phoenix and will surely win the big race there next Sunday, Oct. 10, and break all records for the 100 miles on a dirt track.

TOMMY MILTON.
Milton, Chevrolet and Omar Toft will be the big attraction in Arizona next Sunday when they attempt to lower the world's record for 100 miles at the state fair grounds. Toft circled the track in 50 with an Essex, but Sunday he will pilot one of Barney Oldfield's Indian-apella speedway motors against Chevrolet's Munroe special and Milton's Deussen speedway wonder.

Ten thousand dollars in cash and a diamond studded medal offered by Barney Oldfield will be awarded the winner. From present indications several thousand auto fanciers and Arizona residents who crave a thrill will watch the speed demons circle the fair

CLEVELAND-DODGER GAMES REPRODUCED FOR PHOENIX FANS

Installation of the big electric scoreboard in the Columbia theater, where the world's series games between the Cleveland Indians and Brooklyn Dodgers will be re-enacted, play by play, will start tomorrow morning. The first game of the series will be played Tuesday, starting at 12 o'clock, Phoenix time.

A "test" game will be played on the board either Monday or Tuesday morning, depending entirely upon the length

of time required for installation. A corps of expert scoreboard operators will flash the plays on the board for the fans.

A leased wire, direct to the playing field, will keep fans in close touch with the progress of the game. Plays will be flashed on the scoreboard within a second after they actually take place on the playing field.

The movements of every player will be depicted on the board, which is one of the largest and most complete made. It was especially constructed for this occasion, and includes many details of play heretofore not attempted in the operation of an electric board of this nature.

Doors to the theater will open at 11:30 o'clock, at which hour wire connections with the playing field at Cleveland will be established. From 11:30 to 12 o'clock the wire will be devoted to pre-game gossip, lineups, batteries, attendance and other information of interest to the fans.

During the days of the world's series games the regular picture program at the Columbia theater will be dispensed with until 3 o'clock. Games start promptly at 12 o'clock, Phoenix time, and will probably be finished by 1:15 or 1:30 at the latest. This will give the theater management plenty of opportunity to make arrangements for starting its pictures at 2 o'clock.

The proprietor of a Chicago silk company caught a thief by attaching a string to a bolt of silk on the counter and fastening the other end to a set of sleighbells.

What about the clothier who does the right thing?

YOU hear a lot about profiteering in clothing. Wherever it exists it can't be condemned too severely.

Something ought to be said, however, for the merchants who have been taking only a fair profit; merchants who have tried to help their customers meet high costs.

There are many such merchants.

They are meeting the situation fairly and squarely with

nothing but good quality because they know it is economy.

When they couldn't get enough fine goods, they turned down sales rather than sell "cheap" stuff.

They cut their margins of profit in order to help relieve the strain of high prices.

They say to their customers, "Come back and get your money if you aren't satisfied."

We believe that the merchants who sell our clothes are doing everything they can to reduce costs for you. We think you ought to know it.
